

RESOLUTION NO. 1-03

A RESOLUTION REGARDING DATA ACQUISITION FOR THE SOUTHWEST REGIONAL WATER PLAN

Whereas, the communities and water users and stakeholders in the Southwest New Mexico Planning Region wish to work cooperatively to protect, preserve and enhance the water resources of the region

Whereas, the availability of accurate data will influence the ability of the regional water plan to accurately characterize the water resources of the region

NOW, THEREFORE, BE IT RESOLVED by the Southwest New Mexico Regional Water Planning Steering Committee that:

1. Steering Committee Members that have access to data and information of public record related to the water supply and/or historical or projected water demands in the region will make that data accessible to the Contractor.
2. The Contractor will review the data and information provided by the Steering Committee and will make copies of relevant information.
3. The Contractor will return original copies to the Steering Committee within three weeks of the date they are received, unless the Steering Committee specifically requests an expedited return of the documents
